

1ST INTERNATIONAL SYMPOSIUM ON TEXTILE MALODOUR

26th February 2016, Kleve, Germany / From 09:00 a.m. to 05:00 p.m.

Aim and scope:

The symposium will focus on the microbiology and biochemistry of malodour generation for the different types of textile malodour (e.g. sweat malodour, laundry malodour) and will discuss the role of textiles, detergents and appliances in textile malodour generation as well as the impact for the consumer and possible counteractions. In the subsequent workshop some specific textile malodour topics will be discussed further.

Invited speakers and topics:

- + **Prof. John R Dean, Northumbria University Newcastle:**
Malodour in laundry: sources, implications and analysis
- + **Prof. Dirk Höfer, Hohenstein Institutes:**
Interaction of textiles and malodorous substances.
- + **Dr. Hiromi Kubota, Kao Corp.:**
Microbiology of laundry malodour
- + **Chris Callewaert, Ghent University:**
The malodorous axillary and textile microbiome

Registration fee: EUR 120.–
Students: EUR 50.–

The registration fee includes all coffee breaks, lunch and documents.
