IFRA webinar - BMHCA classification and labelling

Join us for a webinar on Mar 29, 2019 at 1:00 PM CET.

[Register now!](#)

As set out in IFRA Information Letter 1066, the European Chemicals Agency Risk Assessment Committee concluded last November that BMHCA should have a harmonized classification and labelling as CMR 1B (instead of CMR 2).

ECHA's move has led to many questions from within the industry and from downstream users. This IFRA webinar will set out the current situation and seek to answer your questions.

Speakers will include representatives of IFRA, BASF (lead registrant), Emerald (Co-registrant) and Givaudan (Scientific collaborator).

After registering, you will receive a confirmation email containing information about joining the webinar.
